

Memorandum

To: Mary K. Greene, MD.
Anne L. Calkins, MD.
Dawn Light, MD.
Mark Warren, DO.
Frank Planki, DO.

From: Elizabeth H. Ey, M.D.

Date: August 10, 2015

- **ICD 10 modules on HLC** – The HLC module on ICD 10 requirements have been reassigned on HLC. The module with test must be completed by Aug.31. To access the module, go to Focus on your home PACS computer and look for the HLC icon or go the website <https://login.healthstream.com> your logon is first and last initial (lowercase) and the last 4 digits of your SS number. The password is **cmcnet**. We all have to complete the module, except Dr. Light who completed hers last year!
- **Outpatient Testing Center in Huber Heights** – A new testing center with conventional radiography and lab will open in Huber Heights on September 14. It will have lab, x-ray, and physical therapy.
- **Ablavar** – We will soon have Ablavar (gadofosveset) in the formulary for blood pool imaging in MRI. It temporarily binds serum albumin and is useful for first pass angiography and delayed imaging of vascular structures. It is most useful for cardiac imaging, vascular anomalies, and vascular imaging. Greg Huff from the Pharmacy is working on getting the contrast agent for us. To learn more, you can read an article in Pediatric Radiology 2014 Vol 44: 1598-1609.
- **Cordless phones** – Things seem to be working better with the cordless phones and reaching the correct radiologist. Melanie is working on getting a cordless phone for the radiologist in Springboro.
- **Next radiologist meeting** – Monday, Aug 24 at 12:30 pm in the lab conference room. If you have an agenda item to discuss, please forward it to me in an e-mail. Lunch will be provided.
